

# Harefield Cardiac CT Course

May 20th to 25th, 2012

## Combined Level 1 and 2 Course

The Department of Imaging at Harefield Hospital has been successfully hosting a Cardiac CT Course since 2004. These courses have been well attended with participation from radiologists and cardiologists from all over UK.

Aim of the course is to explain the various steps involved in acquisition of cardiac CT and teach a systematic way to review, post-process and interpret the large amount of data available from a single cardiac CTA study that can be adopted to any modern workstation\*. *Some of the main features of this course are:*

- Completely hands-on from day 1 with training delivered on advanced Vitrea (or similar) workstations with their latest software. This course offers 150 cardiac CT angiography and 50 calcium scoring cases (as recommended by BSCI and SCCT for level 2 certification) over 6 days providing ample time to browse through cases under expert guidance.
- Extensive correlation with cath and other imaging techniques.
- Live recorded cases (25) of actual scans being performed.
- Opportunity for on-site training and exposure in CT department at Harefield Hospital after the 6 day course with no extra fees.
- 20 hours of lectures relevant to understanding and practice of cardiac CT
- Faculty comprising of physicists, radiographers, cardiac radiologists, cardiologists, and cardiac surgeons.
  
- Hands-on training delivered by advanced Level 3 cardiac CT practitioner with extensive knowledge and experience in all aspects of cardiac imaging in multi-modality environment in a tertiary cardio-thoracic centre.
  
- Course is endorsed by SCCT for Level 1 and 2 training, and also by RCR for type 1 CME credit (around 37) for the whole meeting.

To register your interest and for further information, please visit

[www.cardiac-ct.org.uk](http://www.cardiac-ct.org.uk)

**Please note:** *This course is targeted to doctors, particularly radiologists and cardiologists.*

**Course Venue:** The Bull Hotel, Oxford Road, Bucks SL9 7PA.

(10 minutes from Harefield Hospital and 15 minutes from Heathrow Airport; this venue has accommodation on site which is available if booked early and there are good nearby hotels)

\*For hands-on training, we use Vitrea Enterprise Suite software from Vital Images, one of the leading Cardiac CT post-processing software in the market. The course is supported by Toshiba Medical Systems.
